AWARD WINNING HR SOLUTION FOR EVERY ENTERPRISE

A fully Integrated Employee Portal with ESS, Online Workflows, HRMS, Leave Management, Expense Management, Performance Management PMS and more

In this Digital Age, businesses find it difficult to exist without Technology. HR is a Very vast function in any company covering activities right from recruitment, performance appraisals to the entire Employee lifecycle management. Handling this manually without the use of any Intranets or HR tools can be extremely difficult and time consuming. Netcomm Labs with its HR technology expertise and Officenet software helps simplify the tasks of the HR Executives.

Key Features

LMS

Integration with Biometrics and Payroll

HRMS

Entire Employee Life Cycle mapping with MIS

PMS

360 degree reviews, Bell curves and Normalisation

Recruitment

Manpower requisition to Hiring

Travel

Eligibility based approvals & claim booking

Training

Assessments with feedback & effectiveness mapping

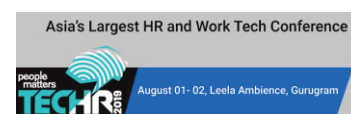

Officenet today is a complete HR Suite with all the features required by HR teams for Employee Self Service, Employee Engagement, Communication and Collaboration. Being a Company's Intranet, Officenet acts as a single window platform for Employee's to fill and submit their online requisitions following the automated approval workflow matrix. These could be in the form of leave requests, travel claims, help desk queries, downloading company policies or just sharing and sending their suggestions. For the Enterprises using Officenet we do customize the workflows as per their requirements besides also changing the design interface to match their company's brand guidelines.

Client Deployments
